BLOOM FARMS™

MEET THE ALL-NEW AND IMPROVED HIGHLIGHTER FROM BLOOM FARMS

CARTRIDGE

The all-new vaporization technology in HIGHLIGHTER includes a state-of-the-art, fully integrated ceramic heating element designed with potency, consistency and flavor in mind.

Features: Sleek integrated mouthpiece, battery-powered ceramic heating element for reliable heating and BPA-free FDA-grade cartridge.

OIL

Our pure, all-natural 100% cannabis oil is extracted with clean CO2 and has a consistent 50-70% THC content. We use a unique blending process to maintain the plant's natural flavors. All of our terpenes are derived from the same cannabis plants that the oil is made from.

Our oils go through a rigorous three-lab testing process at State-licensed facilities, and ALL of our products exceed State standards.

BATTERY

With your feedback in mind, our newly updated HIGHLIGHTER is enhanced to deliver an even more satisfying experience. Discreet, stylish and easy to use, this health-conscious alternative to smoking delights with artful sophistication, consistently potent vapor and no lingering scent.

Features: More powerful 10-watt battery with 3.3-4.2 voltage, breath-activated operation that's always ready to use, longer battery life (up to 300 puffs), consistent oil-heating for a smooth, reliable experience and 10-second inhale cut-off to protect the user, battery and hardware.

NEWLY ENHANCED WITH YOUR FEEDBACK IN MIND

Your cannabis should be **safe, effective and great-tasting**.

Our upgraded hardware and clean, **all-natural oils deliver a reliably superior experience**—every time.
